All reported locations

County OES additions and the earlier District 1 concerns. Symbols locate reports; they do not show current hazard severity, closures or flood extent.

Read the map

- District 1 list (also repeated in email)
- New OES entries

Filled dots: coordinates supplied in the email.
Open dots / dashed lines: approximate references, general areas or address candidates.

92 combined records
85 OES additions + 7 earlier District 1 concerns. The repeated District 1 list is counted once.

75 supplied coordinates
Copied without moving or snapping. The email does not state a datum or field accuracy.

17 descriptive references
Intersections, road segments, landmarks or general areas. Lost Hills Road and Derrick / Clarkson each retain two candidate points.

Detail maps

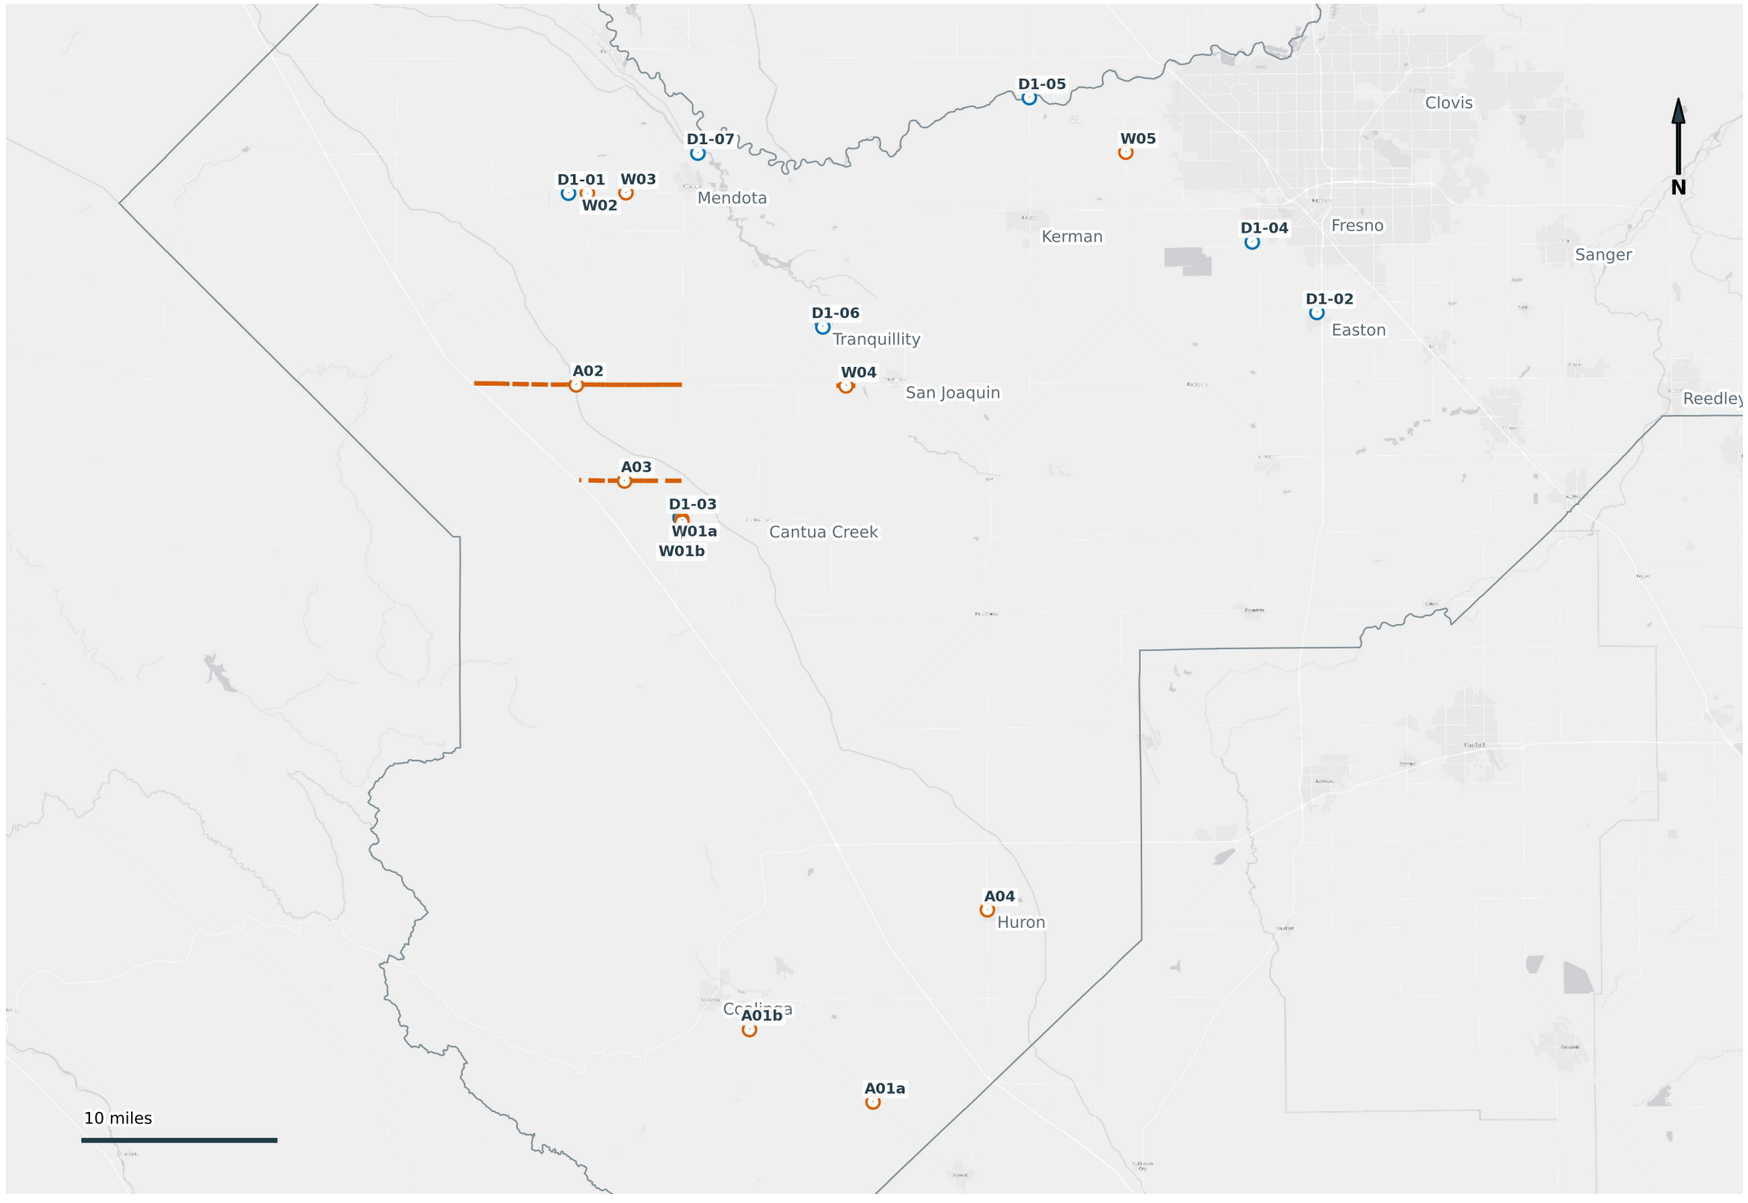

2. Westside and District 1: 16 records
3. North foothills and mountains: 63 records
4. Southeast and Highway 180: 13 records

The interactive map contains every report, its wording, coordinate or placement basis, and the remaining location question. The CSV provides a full index.

North foothill and mountain reports

County OES additions and the earlier District 1 concerns. Symbols locate reports; they do not show current hazard severity, closures or flood extent.

Read the map

- District 1 list (also repeated in email)
- New OES entries

Filled dots: coordinates supplied in the email.
Open dots / dashed lines: approximate references, general areas or address candidates.

63 records

K01-K57 preserve the numbered K21/K11 list in the email. Types include bridges, culverts, low spots, washouts, mudslides and rockslides. Use the interactive map or CSV for individual descriptions.

N01 Tollhouse south of Sierra Marina

N02 Balsam Creek / Big Creek Road

N03 Italian Bar bridge at San Joaquin River

N04 Highway 168 four lanes (general reference)

N05 Sycamore / Vincent Fire Road

N06 Highway 168 / Dry Creek

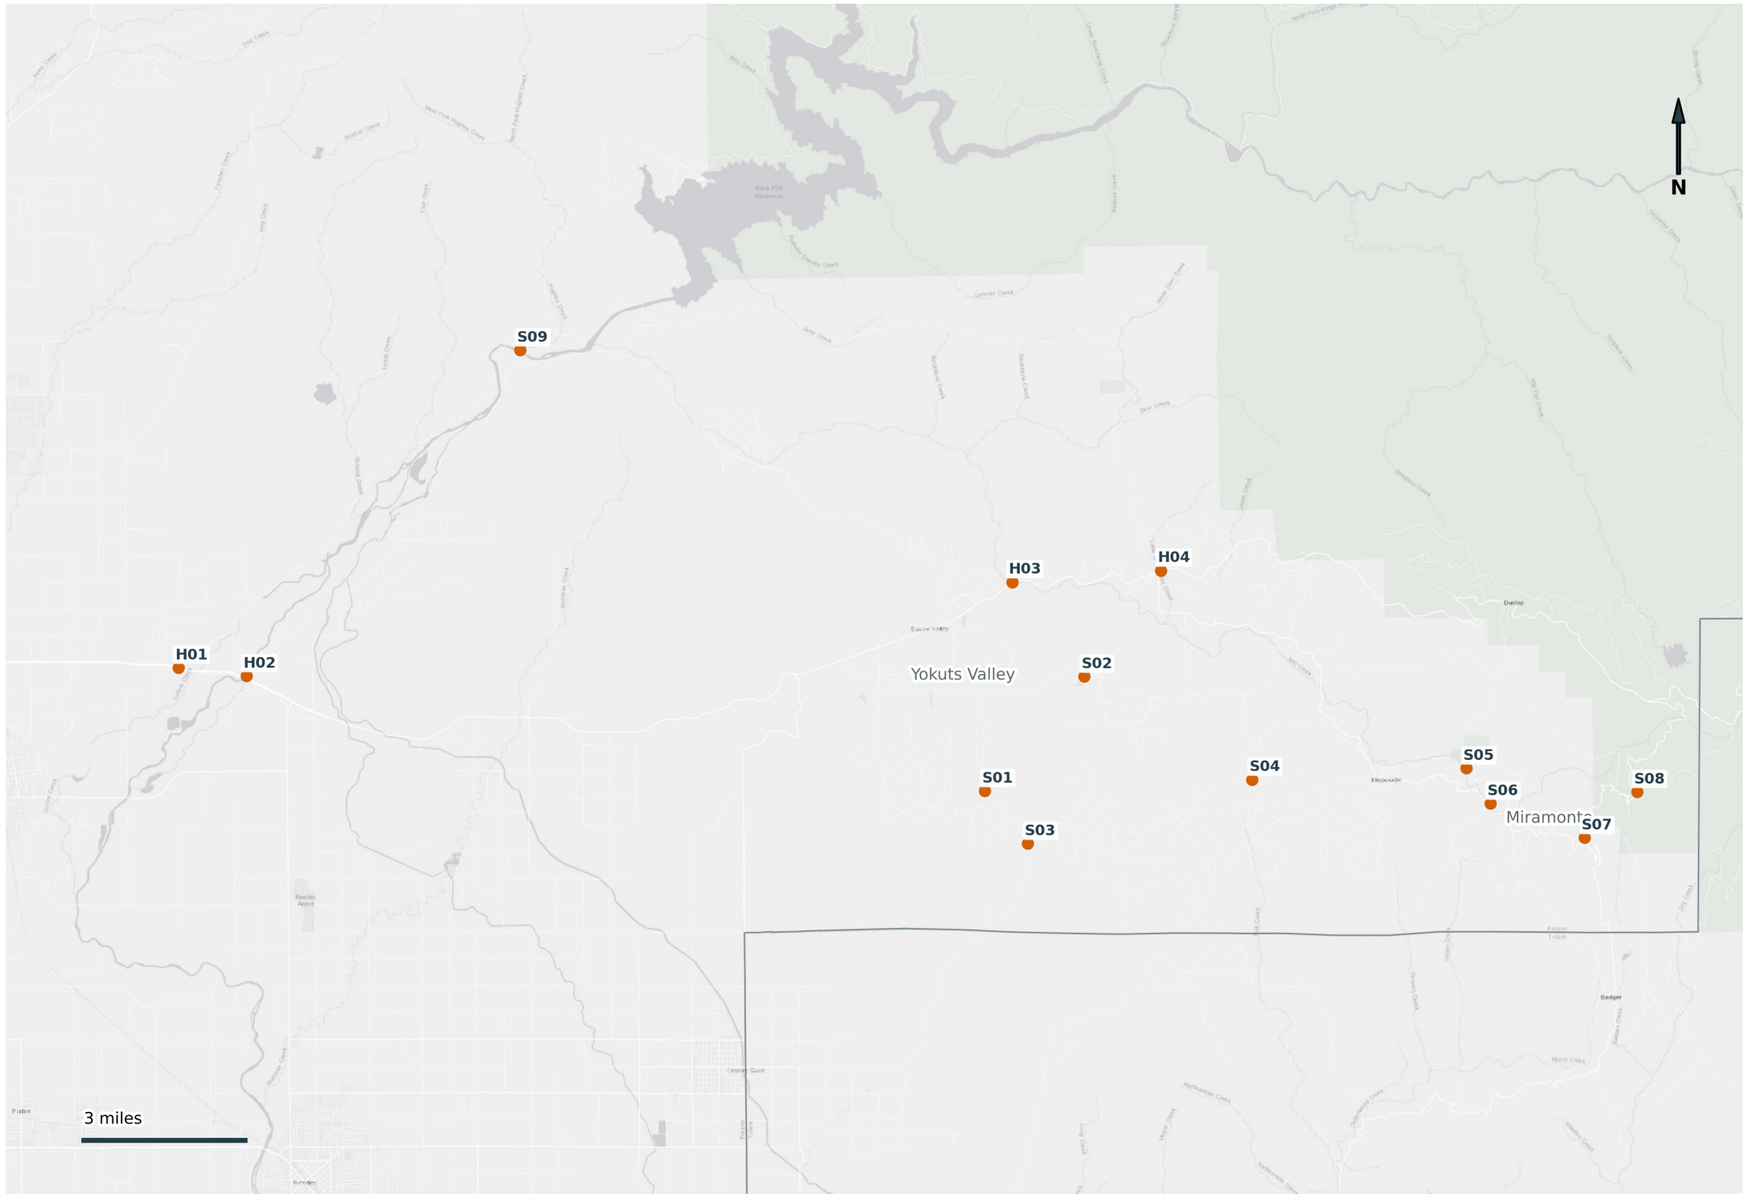

N04 is placed at Pineridge as a community reference only. The intended four-lane segment and its endpoints still need confirmation.

Source headings are retained as email groupings. They do not assign a maintenance agency, district boundary, priority or confirmed damage condition.
